International Network for Sustainable and Innovative Digital Excellence in Construction Vocational Education

INSIDE-CoVE at a glance

26 Partners

6 EU Countries

4 National Centres of Vocational Excelence

INSIDE-CoVE transforms vocational education and training (VET) for the construction sector by developing future-ready skills and inclusive approaches.

Our activities

→ **Innovation & Technology**

Enhancing learning experiences by:
- leveraging advanced technologies,
- using knowledge triangles and dynamic ecosystems,
- using blended learning techniques with extended reality (XR), virtual reality (VR), augmented reality (AR), mixed reality (MR),
- integrating AI and automated feedback systems.

→ **Regional and International Impact**

A strong regional and international dimension, with specific focus areas in different countries:
- in Greece, the focus is on the aluminium value chain;
- in Spain, digital construction;
- in Germany, smart buildings; and
- in Ireland, green buildings and the circular economy.

→ **Quality Assurance and Sustainability**

Highest quality of outcomes through continuous evaluation and alignment with European standards.

Our mission

INSIDE-CoVE aims to enhance vocational education and training (VET) in the construction sector by establishing Centres of Vocational Excellence (COVEs) in Greece, Spain, Germany, and Ireland.

INSIDE-CoVE partnerships focuses on aligning VET with industry needs, fostering innovation, and ensuring inclusivity.
